

We are hiring. Join us to work on tomorrow's technology, now!

Venera is a frontrunner in working on new media technologies. We were among the first companies in the world to offer H.264 based video analysis solution. Our workforce gets opportunities to work on the latest technologies, be it upcoming CODECs and file formats, Blu-ray or 3D. As a technology visionary company, we believe in investing our resources to create media processing technologies of the future. Our employees are working on products that are changing the way media is analyzed or delivered. Our culture fosters growth for talented and motivated team players. We invite you to explore opportunities with us and see what your future may have to offer you.
